Who is unigrid battery?

SAN DIEGO, Dec. 19, 2023 /PRNewswire/-- UNIGRID Battery, a University of California, San Diego spin-off startup company, announces that it has received its first commercial MWh-scale purchase orders for their advanced sodium ion batteries.

Will unigrid deliver MWh batteries in 2024?

UNIGRID's advanced sodium-ion batteries have undergone third-party testing and validation, and the company is on track to deliver MWh quantities to customers in 2024. The team is ramping up production in San Diego, California, to meet the growing interest and demand.

Will unigrid deliver advanced sodium ion batteries in 2024?

Erik A. Wu, CTO of UNIGRID. Third party testing and validation on the advanced sodium ion batteries has been completed, and UNIGRID is on track to deliver MWh quantities of its advanced sodium ion batteries to customers in 2024.

What is unigrid's sodium-ion battery technology?

Discover UNIGRID's sodium-ion battery technology that combines safety, performance, and sustainability. Our innovative batteries use abundant resources to deliver efficient and powerful energy storage solutions for a cleaner, safer world. Learn more and take the Sodium-Ion Challenge today!

Are unigrid batteries safe?

UNIGRID's sodium-ion batteries are unlike any other. Built in safety. For peace of mind. Third-party tested for safety, you will not find a safer sodium-ion battery with comparable performance. Our sodium-ion batteries do not undergo thermal runaway.

Are unigrid sodium-ion batteries safe?

Take the Sodium-Ion Challenge. For a cleaner, safer world. The world needs clean, safe, easily accessible, and affordable energy storage. We've cracked the code on a solution: UNIGRID's sodium-ion batteries, which use abundant resources, are lower-cost, safer, and just as powerful as any other battery. Why UNIGRID's sodium-ion batteries?

UNIGRID Battery is a spin-off from the University of California, San Diego, founded in 2021. The company was established from the groundbreaking Ph.D. research of Dr. Darren H. S. Tan and Dr. Erik A. Wu, advised by Professors Zheng Chen and Shirley Meng. UNIGRID develops advanced sodium-ion batteries to power emerging energy storage and ...
