Commercial UPS; Industrial UPS; WIMES & Harsh Environment UPS; Generators. Open set generators; Canopy generators;

Dale Power Solutions is one of the UK's largest suppliers of uninterruptible power supplies (UPS) and generators. We offer a wide range of commercial and industrial power supply products to suit a variety of industries. We also provide complete asset life-cycle management with our service and maintenance support for UPS and generators.

We have extensive experience in delivering customised solutions that meet industry-specific needs of the transport, marine, oil and gas and telecommunications industries, alongside delivering solutions to military and WIMES 3.07 specifications and standards. Our solutions are built to function in even the most rugged and harsh environments.

That's why Dale Power Solutions offers fuel management solutions for our customers. What is fuel management? Fuel management is crucial to ensuring the quality and performance of the fuel running your power supply equipment. Diesel can't be stored indefinitely. Over time, it can degrade and become contaminated with impurities.

But wear and tear over time is inevitable, so should you find yourself in a situation where you have a failure on your UPS system, Dale is on hand to help get you back up and running. We have a UK stock of new UPS systems that our team can deliver, position and install in no time at all.
