Comparing solar prices online can save you thousands on your system. Government research from the National Renewable Energy Laboratory, or NREL, shows that homeowners comparing solar prices online save around \$2,800 when buying solar. It's not surprising that many sites have popped up offering to introduce consumers to solar companies near them.

Solar panels and solar power energy systems have only gotten more affordable as the years have gone on. Just eight years ago, a 3kW system would cost you around \$40,000, while today the same system could be installed for less than \$9,000. As equipment and processes become more developed, and more efficient, prices drop, too.
