

Myanmar solar energy equipment supplier

Who is Myanmar Solar power trading?

Myanmar Solar Power Trading Co.,Ltd is established in 2011 and we are one of the leading full-service providers for C & I projects, residential, industrial and large scale solar projects in Myanmar. From a single point of contact, we provide solar PV designs, calculations, consultations, installations and repair and maintenance services as well.

Is there solar power in Myanmar?

Myanmar has high solar irradiation levels in many areas, but no large-scale solar power systems have been installed due to the largely mountainous terrain, protected areas, and limited grid system. Solar power is currently an option only for rural and off-grid applications in Myanmar.

What is the primary energy supply in Myanmar?

Approximately two-thirds of Myanmar's primary energy supply comes from biomass--firewood and charcoal--and rural areas for the most part lack electricity. The government, which took office in March 2011, has introduced sweeping political and economic reforms fundamental to development.

With multiple production facilities, we can professionally design, manufacture and distribute a portfolio of products focused on PV module, solar power system installation and other smart energy solution.
