

Is Webasto a sustainable Battery Company?

For passenger cars, Webasto develops battery systems according to customer specifications. The automotive supplier is striving to reduce the ecological footprint in the development and production of batteries. On the way to more sustainable battery systems of the future, Webasto is showing initial ideas.

What is a Webasto standard battery system?

For example, the Webasto Standard Battery System for commercial vehicles is equipped with a robust casing and efficient thermal management. It is particularly suitable for demanding applications such as on construction sites or off-road.

Why should you choose Webasto CV standard battery system?

The Webasto CV Standard Battery System guarantees top-notch quality and safety. Its modular,scalable design caters to diverse vehicle types,offering robust housing,unwavering quality,and efficient thermal management. With our standard portfolio you can start directly with the electrification and get started even with small quantities.

Does transom own Webasto charging solutions?

LOS ANGELES (April 2,2024) - Transom Capital Group("Transom"),an operations- focused middle market private equity firm,is pleased to announce the successful completion of its acquisition of Webasto Charging Solutions,Inc. from Webasto Group,a top 100 supplier to the automotive industry worldwide.

How does Webasto's 'ecopeak' roof system work?

The plant expansion in Luxembourg enables the energy-efficient production of innovative technologies for glass roof systems. Webasto presents the "EcoPeak" roof concept, a sustainable solution that reduces CO2 emissions and increases the vehicle's range by combining recyclability, functionality and aesthetic design.

What is a standardized battery system?

It extends the range, accelerates the charging process, optimizes recuperation in cold conditions and promotes the longevity of the battery. The modular Standardized Battery Systems for commercial vehicles combine the price advantages of a scalable plug-and-play mass product with the precision fit of a customized solution.

Originally developed for fuel cell testing applications and for systems that require additional sinking power, Webasto customers have also used this versatile machine to cycle hybrids and batteries. The ABC-170 offers power from +125 kW to -170 kW, with a voltage range of 8 to 445 VDC and a current range of +530 ADC to -640 ADC.

Find the right roof system for your boat. Whether fixed or folding, openable or closed. Webasto has a large

Nauru webasto battery systems

portfolio of marine roofs. Home. About Us ... Standardized Battery & Thermo Management; Power Cycling & Test Systems; All products. All ...

The battery system is manufactured at Webasto's Schierling plant in Bavaria. One of the most modern battery system production facilities is located here - the highly flexible Multi-Product-Line, which can produce up to 40,000 battery systems per annum.

The Webasto Standard Battery Pro 40 is designed according to the highest safety and quality standards. ... The Webasto Standard Battery Pro 40 is a successor product to the CV Standard Battery System and offers even more energy in the same installation space. Thus, it provides an even higher energy density for various vehicle applications. ...

Webasto excels in crafting personalized battery systems, showcasing remarkable flexibility to meet diverse customer needs. Specializing in tailored solutions for both passenger and commercial vehicles, we adeptly deliver customized or ...

Enables high power outputs with maximum number of battery packs thanks to no HV limitations; AC and DC charging possible with additional vehicle-side HV architecture; Up to 18 battery packs possible (individual configuration to be ...

With its own next-generation battery system for hybrid vehicles, the HEV battery, Webasto is proactively offering solutions to address changing market requirements. The battery system, developed in collaboration with ...

All Webasto power cycling systems are equipped with a real-time clock on the system's control board that enables measurement of Ah and kWh during cycling. The ABC-150 offers power up to 125 kW, with a voltage range of 8 to 445 VDC and a current range of 177;530 ADC.

Webasto has announced its new CV Standard Battery System. Suitable for recreational and commercial vessels, the technology delivers optimal battery performance in a modular and scalable package. For vessels with ...

The Webasto CV Standard Battery System guarantees top-notch quality and safety. Its modular, scalable design caters to diverse vehicle types, offering robust housing, unwavering quality, and efficient thermal management. Learn more ...

All Webasto power cycling systems are equipped with a real-time clock on the system's control board that enables measurement of Ah and kWh during cycling. Benefits of Power Test System MT-30 This cutting-edge power system delivers a 99 % power factor and over 92 % regenerative efficiency, with dual independently controlled channels and analog ...

Sustainable energy supply from used batteries at the Webasto plant in Schierling Stockdorf/Schierling - November 07, 2024 - Webasto, a leading global systems supplier to the automotive industry, is consistently focusing on sustainability and driving forward the energy transition in production. A battery storage system went into operation at the plant in Schierling, ...

Automotive supplier Webasto has implemented a one-megawatt-hour (MWh) battery storage system at its plant in Schierling, southeast Germany. The system utilizes 30 second-life commercial vehicle batteries to store electricity generated by the facility's solar power system, enhancing its energy sustainability.

Stockdorf - March 23, 2022 - Whether airport vehicle, truck or construction machinery - Webasto now offers the necessary assistance for companies that wish to convert their commercial vehicles from conventional combustion ...

Chez Webasto, nous sommes convaincus que l'avenir appartient à l'électromobilité. C'est pourquoi nous utilisons notre expertise en matière de technologie automobile pour faire avancer le développement de batteries pour un large éventail d'applications automobiles. Avec des solutions de batteries spécifiques aux équipementiers ...

Il Webasto CV Standard Battery System soddisfa i più elevati standard di qualità e sicurezza. Con il suo design modulare e scalabile, funge da versatile batteria di trazione per un'ampia gamma di veicoli, dai veicoli commerciali leggeri a diverse macchine mobili. Il sistema non solo fornisce un alloggiamento robusto, ma garantisce anche una ...
