

Nenghui Energy residential ESS features with reliable,high energy density lithium-ion batteriesto make homes enjoy green energy while without worries of more expensive electricity bills from unstable grid prices.

Nenghui LV battery Slimbox is developed for the battery energy storage system applications of 60V and below, which is suitable for paralleling topology system. The single system can support maximum 15 pcs of products for paralleling operation, with an energy storage up to 53kWh.

NHEnergy is a great app in monitoring real time power generation and consumption for home and charging clearly by just having a look at your smart phone. Integrated with all related functions for home, you can easily know and deal with your further reduction of carbon footprint.

Sineng's C& I energy storage solution features rack-level battery management, optimizing system performance and extending battery lifespan. Ideal for energy arbitrage, peak shaving, power ...

In the past few decades, electricity production depended on fossil fuels due to their reliability and efficiency [1]. Fossil fuels have many effects on the environment and directly ...
