

Neoom notstrom Ukraine

How big is neoom?

561 mm x 480 mm x 350 mm*Please note the separate warranty conditions for Austria, Germany and Switzerland. The declared goal of neoom is to enable the switch to a decentralised and, above all, renewable energy system through the perfect interaction of hardware and software.

What can neoom do for You?

Produce your own electricity, store energy, link energy devices and optimise energy flows, trade green electricity with others - with neoom you can do all of this, in perfect technical harmony. The green electricity you produce is a valuable resource. In an electricity storage unit, you can simply store this energy until you need it.

What is the planet neoom?

We love to explore new ways that have a long lasting effect on our society and in particular, the planet neoom offers innovative, clean, and integrated decentralised energy solutions.

What was Kurt Mayr looking for in a neoom kjuube hybrid storage unit?

Kurt Mayr was looking for an investment in the future that would set an example for sustainability and found what he was looking for with the neoom KJUUBE hybrid storage unit. Which energy storage is right for you?

How neoom has been climate-neutral since 2021?

We always start with ourselves. At the beginning of every path, surely the first step must be taken. In the beginning of 2021, neoom began to measure the - Corporate Carbon Footprint. In a second step, all collected emissions were offset, so neoom has been climate-neutral since 2021.
