the sustaining issues in the management of Bangladesh grid network, Bangladesh power literatures still lack in the thorough analysis and system modelling implementing MAS. This paper contributes in the exploration of the literature on local power and energy systems to curate the top challenges in Bangladesh power systems at the moment. We

Project PULSE is part of Neste's activities to advance chemical recycling. Chemical recycling turns waste plastics into hydrocarbons that can be used as a raw material for the production of new plastics and chemicals, complementing existing recycling technologies, e.g. mechanical recycling. It helps to close the loop within a circular economy.

Alates eelmise sajandi kaheksakümnendatest on Naps Solar olnud juhtiv jõud alternatiivsete energiaallikate valdkonnas. Alguse saanud Soome ettevõtte Neste initsiatiivil, kasvas Neste Advanced Power Systems (NAPS) teadus- ja arendustegevusest välja, keskendudes päikeseenergia lahenduste loomisele ja innovatsioonile.
