

Should energy storage systems be mainstreamed in the developing world?

Making energy storage systems mainstream in the developing world will be a game changer. Deploying battery energy storage systems will provide more comprehensive access to electricity while enabling much greater use of renewable energy, ultimately helping the world meet its Net Zero decarbonization targets.

When is the Energy Storage Summit 2025?

Gearing up to celebrate its 10th anniversary, the Energy Storage Summit will return to London on 17-19 February 2025, with the Intercontinental London - The O2 as its new home. workshops, an Energy Storage Academy, an after-party, private networking dinners and much more! 100+ Exhibition Stands 170+ World-Class Speakers Worldwide Audience

What is the Energy Storage Summit?

Our Summit aims to highlight the fundamental role that energy storage will play in this journey, and will strive to recognise, explore and analyse key challenges that may present themselves on the trajectory ahead.

Who are the delegates at the energy storage Conference?

Join us in February for the networking event of the year, bringing together over 2000 delegates from across Europe's energy storage value chain, spanning investors, developers, IPPs, banks, government and policy-makers, TSOs and DSOs, EPCs, optimisers, manufacturers, data and analytics providers, consultancies, system integrators and more.

What is the energy storage event?

The main theme of the event will be digital transformation and acceleration in the energy storage sector. Key topics will include Energy Storage Technologies, Digital Transformation, Project Hurdles & Solutions, Cross-Sector Storage Integration, Offtake vs. Merchant Risk, Platform Development, Financing, and M&A.

Is battery energy storage a new phenomenon?

Against the backdrop of swift and significant cost reductions, the use of battery energy storage in power systems is increasing. Not that energy storage is a new phenomenon: pumped hydro-storage has seen widespread deployment for decades. There is, however, no doubt we are entering a new phase full of potential and opportunities.

Subscribe to Newsletter Energy-Storage.news meets the Long Duration Energy Storage Council Editor Andy Colthorpe speaks with Long Duration Energy Storage Council director of markets and technology Gabriel Murtagh. News ...
