

New Scam on Solar Power Subsidy

Is the energy bill support scheme a scam?

Others have reported the messages being from an unknown number. The messages tell you that you are eligible to apply for a discounted energy bill as part of the Energy Bills Support Scheme. But this is a scam and should be ignored or reported - see below for more info on how to do this.

Are fake emails claiming a discount on energy bills a scam?

People are being warned to look out for fake emails and texts claiming to offer discounts on energy bills. A number of different scams have been circulating, including some that appear to be from the energy regulator Ofgem. The government has announced that a £400 energy bill discount will be available to all households.

How did scammers use the £400 government energy bill rebate?

Scammers used the £400 government energy bill rebate, known as the Energy Bills Support Scheme, to trick people into handing over their details. This scheme ended for most households in March 2023, and payments would have come directly from your electricity supplier.

Are changes to our energy bills a scam?

Changes to our energy bills offer a prime opportunity for scammers to sow confusion - and this year is no different. In July, the government announced plans to scrap the winter fuel payment for millions of pensioners not claiming means-tested benefits.

What are energy scams?

Energy scams involve people pretending to be energy companies or regulators to get your money or personal information. These scammers may pretend to be your energy company, say they're from Ofgem or even from Energy Saving Trust to try and gain your trust.

Are scammers taking advantage of the government's energy grant scheme?

Scammers seek to take advantage of the government's energy grant scheme. As energy bills rise, scammers are seeking to take advantage of unsuspecting consumers. Their latest trick involves sending a malicious text message link that asks you to sign up for the government's energy grant.
