

New Zealand solar battery online shopping

How do solar batteries work in NZ?

Solar batteries provide a smart way to store solar energy in NZ. The battery system lets you store excess power generated by your solar panels for later use at night or during cloudy days. Our team at Discover Solar is passionate about helping the local community find the ideal solar solution.

How many types of solar batteries are there in NZ?

We have two types of solar batteries in NZ, but we will help you choose the right one for your application. DC Coupled Battery System: You can only connect solar panels to this battery storage type, meaning it can only store energy generated by your solar panels.

Why should you choose a solar battery in NZ?

Solar batteries enable you to become energy-dependent and reduce your electricity bills. Discover Solar has partnered with a reputable solar battery manufacturer, Sungrow, which has a robust track record of 25 years in the industry. We have two types of solar batteries in NZ, but we will help you choose the right one for your application.

What is a solar battery storage system?

A solar battery storage system ensures a continuous power supply from your solar system, even on cloudy days and at night. Lithium-ion batteries are used as they have a high energy density, meaning they can store a significant amount of energy in a relatively compact size. Introducing the NEW Deye inverter to our Solar range.

How do solar storage batteries work?

Solar storage batteries function to reduce your dependence on solar panels alone, allowing you to store and use all excess electricity generated by the panels. Solar batteries are charged during the day so they can provide stored energy when the sun is down.

Why are solar batteries charged during the day?

Solar batteries are charged during the day so they can provide stored energy when the sun is down. Our solar storage solution is designed to be customer-centered - giving you control over the power distribution during normal operations and during a power outage.
