Is Solar Power a good option in New Zealand? New Zealand is a lucky country for many reasons, one of which is the amount of sunlight we receive throughout the year. Solar panels work when the sun is shining, which we regularly experience even in the cooler parts of the country.

Key points of On Grid Solar: Cheapest installation and system configuration costs in comparison to off-grid setups. Dependable - Your family has constant access to power whether your panels are generating energy (daytime) or not (night time). So you never have to worry about running out. In New Zealand you currently ge
