

LC20 Load Bank The LC20 is our first liquid cooled load bank. It provides up to 500kW of resistive load and is constructed to the highest standards. It is ideal for data center commissioning and testing while integrating seamlessly with existing cooling infrastructure. Specifications Table Header Capacity 500kW Voltages Available 400V or 480V Frequency 50Hz [...]

Resistive load banks from Avtron test ac loads at unity power factor to verify output or apply required load to diesel generators. Avtron offers best-in-class solutions in a range of portable, movable, and permanent designs for indoor or outdoor use. Their industry-leading SIGMA controls make operating and networking multiple loads easy while ...
