

Niue solar supply company

Will Niue build a solar farm?

Niue is seeking about US\$18 million to build a solar farm as part of the island nation's plans to reduce its heavy reliance on fossil fuels. The minister for infrastructure, Dalton Tagelagi says Niue's strategic energy road map sets the ambitious goal of having 80 percent of its power generation coming from renewable energy sources by 2025.

Where is Niue located?

Niue, the largest unraised coral atoll in the world, is situated in the South Pacific Ocean, some 2,400 kilometres northeast of New Zealand. Like many island nations, Niue is heavily dependent on diesel fuel for power generation.

What is Niue's energy roadmap?

Under the new energy roadmap, Niue has set a goal of 80% renewables by 2025. According to Radio New Zealand, while the main focus of Niue's energy transition will be on solar power; the potential of other renewables such as wind power, biomass and wave energy will be investigated.
