

# North Macedonia al yamamah solar power systems factory

Who built the first solar plant in North Macedonia?

The 10MW solar plant, built on the site of the spent Oslomej lignite coal mine, was constructed by the public company JSC Elektrani na Severna Makedonija (ESM). This is the company's first solar plant in North Macedonia, developed with a view to diversifying energy sources and supporting decarbonisation.

How will a new solar plant help Macedonia?

Andi Aranitasi, EBRD Head of North Macedonia, said: "The new solar plant will help the country, which faces severe air pollution from coal, to reduce its reliance on ageing coal-fired infrastructure. It will also generate cheap electricity in times of very high market prices.

How did Italy support the Oslomej 1 solar power plant?

In addition, Italy supported the project by financing the technical feasibility assessment. The Oslomej 1 solar power plant is one of the 21 flagship projects in the Western Balkan region, selected for the EU financing in 2022 through the WBIF.

Is North Macedonia a good place to invest in green energy?

Dimitar Kovačevski, Prime Minister of North Macedonia: "It is really a great pleasure to be here today, where once a big environmental polluter was located and now we are producing green energy. The benefits of this investment are manifold.

Find company research, competitor information, contact details & financial data for AL YAMAMAH SOLAR POWER SYSTEMS FACTORY CO of Jeddah, Makkah Al Mukkaramah. Get the latest business insights from Dun & Bradstreet.
