H2-View News: Hystar launches 1.5MW green hydrogen field pilot project in Norway 2024-11-18T17:37:44+00:00 The joint effort between Equinor, Yara Clean Ammonia, Gassco and ABB, will provide Hystar with performance data from its containerised PEM electrolyser unit, as it looks to scale up commercial deployments.

The support comes from Pilot-E, which is a joint financing venture run by Enova, the Research Council of Norway, and Innovation Norway. Bodø can be Northern Norway's hydrogen capital. Bodø is a strategic hub in the Salten region. The diversity of industrial consumers makes the town a natural centre for production of hydrogen.

H2 Energy was founded in August 2014 with the goal of playing an active role stopping climate change. We want to make hydrogen from renewable energy a cornerstone of the energy system. This can only succeed if the entire value chain across production, distribution and consumption is expanded sustainably and economically. ...

H2 Energy AB was founded by a group of scientists from Royal Institute of Technology, KTH Stockholm, in cooperation with some experienced businessmen, all with vast experience in thermochemical and industrial processes. We want to develop and deliver components, engineering and complete processes for hydrogen production. ...

The Norwegian oil and gas major previously agreed with RWE to build a hydrogen supply chain to decarbonise power plants in Germany. However, H2 View understands the plans have been scrapped due to insufficient demand, inadequate regulatory framework and high prices. The total cost of the pipeline was reported to cost around EUR3bn (\$3.35bn), whilst

Gen2 Energy is currently developing four state-of-the-art production facilities across strategic locations in Norway. The facilities will harness Norway's abundant hydropower resources to generate clean, green hydrogen. Gen2's strategic positioning and renewable energy access make it an ideal partner for European decarbonization.

Pioneering Marine Power-to-X Solutions Unlocking off-grid renewable Power-to-X Making renewable energy mobile. - H2Carrier - P2XFloater - Green ammonia ... This is why using ammonia as an H2 carrier will be paramount to creating meaningful and scalable green infrastructure tools and energy ... Contact us. Martin Linges vei 25. 1364 Fornebu ...
