What does Novitium Energy do?

Novitium Energy, a national energy company with a portfolio of over \$100 million, works closely with clients across industries to develop, finance, build, operate, and maintain custom solar systems. These systems provide unlimited clean energy and levelized costs needed to be ready for the next decade and beyond.

Why did Novitium collaborate with Sonoco?

Novitium Energy CEO, Jeremy Conner shared, "We are pleased to have collaborated with Sonoco. Both of our organizations feel a deep sense of responsibility to serve our local communities, where many of our employees work and live, by leading the way with renewable technologies to meet the increasing demands of our environment."

Goodlight Energy is a premier provider of sustainable energy solutions in Somalia and East Africa. We specialize in reliable, eco-friendly energy products and services, including solar panel installations, power inverters, and maintenance. Our mission is to empower communities with clean energy for a brighter, more efficient future.

National Energy Partners is now Novitium Energy, a National Energy Partners company! Founder and CEO Jeremy Conner shares, "We are excited to lead the way into this new chapter of renewable energy. A chapter where consumers, investors and commercial partners are demanding real, green solutions.

Novitium Energy's President and Chief Operating Officer is Lou Sabec. Other executives include Kaylynn Kim, Executive Vice President of Finance and Assets; Jeremy Conner, Chief Executive Officer and 1 others. See the full leadership team at Craft.
