Also the battery has "backup" work mode which will prevent it from discharging The last step from creating a functional HA automation to achieve what I asked for is to change my access to the battery system from LAN (read only) to RS485 which will ...

Octopus Energy Generation has completed the full acquisition of UK-based renewables and energy storage developer Exagen Group. Skip to site menu Skip to page content. PT. ... In 2023/24, Exagen made notable progress by securing planning consent for 520MW of standalone battery storage projects at sites in Leicestershire and Gloucestershire.

As people have said. Tariff can be the game changer in all this. I was on Octopus Go from install then switched to Flux over the summer and making money. Switched back to Go last month. Would be on Intelligent octopus if car/charger allowed as get more cheap hours as cheaper rate and a better export (fat chance of that in the winter). Other things:

Octopus Flux will be able to save customers more than £326 a year compared to the suppliers next more appropriate tariff, it noted. "We're delighted to launch our next generation import/export tariff, "Octopus Flux", for those with solar panels and a battery at their home," an Octopus spokesperson said.
