

How has Kyrgyzstan reformed its energy sector?

Since the 2015 review, a number of energy sector reforms have taken place in Kyrgyzstan, and the country has made noticeable steps forward in developing non hydro sources of renewable energy, while setting clear targets to increase the share of variable renewable energy in the energy mix.

Who has power in Kyrgyzstan?

Executive power in Kyrgyzstan lies with the government, its subordinate ministries, state committees, administrative agencies and local administrations. In the energy sector, the government: Grants and transfers property rights, and rights for use of water, minerals and other energy resources.

Does Kyrgyzstan have a long-term energy sector development strategy?

Kyrgyzstan does not have a long-term energy sector development strategy. The effective National Energy Program for 2008-2010 (NEP), with its integrated plan for fuel-energy complex development to 2025, was approved in 2008 and remains the government's main long-term policy document.

Does Kyrgyzstan have a sectoral energy demand?

IEA. All rights reserved. At 9% of TFC, Kyrgyzstan's industrial sector represents the smallest share of the country's sectoral energy demand in comparison with buildings and transport. The annual energy efficiency potential of Kyrgyzstan's industry sector is estimated at just over 11% of annual energy consumption.

Is Kyrgyzstan part of EU4Energy?

Kyrgyzstan is one of the focus countries of the EU4Energy programme, which is being implemented by the IEA, along with the Energy Community and the Energy Charter, and which includes Armenia, Azerbaijan, Belarus, Georgia, Kazakhstan, Kyrgyzstan, Moldova, Tajikistan, Turkmenistan, Ukraine and Uzbekistan.

What is the main energy source in Kyrgyzstan?

With a 33% share in 2020, oil is the main energy source in Kyrgyzstan's TES. The majority of this is covered by imports, given that domestic production is limited, despite having tripled in the last decade. Oil use for generating electricity and heat is negligible and virtually all oil is consumed in by end-use sectors.
