

What is the potential for solar energy in Palestine?

There is high potential for solar energy in the Palestine, with a daily average solar radiation of 5.4 kWh/m² which should encourage its use for mass applications like cooking, industrial and domestic heating, water pumping, rural electrification, desalination etc.

What is Taoistic solar?

Taoistic Solar has established a modern intelligent control system to achieve integrated intelligent control of product data at the same time. The products have passed the testing and certification of many international authoritative organizations such as TUV, CE, CQC, BIS, and INMETRO.

How can Palestine reduce its reliance on imported energy carriers?

Palestine can reduce reliance on imported energy carriers by deployment of clean energy systems, especially solar, geothermal and biomass. Palestinian areas has large alternative energy potential which can be harnessed by a futuristic energy policy, large-scale investments and strategic assistance from neighbouring countries like Jordan and Egypt.

What is the potential of biomass energy in Palestine?

Being an agrarian economy, Palestine has a strong potential for biomass energy. There is good potential for biogas generation from animal manure, poultry litter and crop wastes. In addition, organic fraction of municipal solid wastes is also represents a good biomass resource in Palestine.

What is solar water heating in Palestine?

Palestine receives about 3,000 hours of sunshine per year and has an average solar radiation of 5.4 kWh/m. Domestic solar water heating (SWH) is widely used in Palestine where almost 70% of houses and apartments have such systems. In fact, Palestine is one of the leading countries in the field of SWH for domestic purpose.

Who is Taoistic?

A group company integrating cell production, glass manufacturing, photovoltaic module manufacturing, photovoltaic system integration and services, Based on the development of scale, refinement and internationalization, Taoistic is fully committed to the research, development, production and sales of photovoltaic technology and products.
