Papua New Guinea kks energy

What is Papua New Guinea's energy project?

The project will bring electricity to rural households; expand renewable energy generation; support the modernization of the country's electricity infrastructure; and benefit households, businesses, and communities across the nation. "This project represents a major step forward for Papua New Guinea's energy future.

Is totalenergies planning a large-scale LNG project in Papua New Guinea?

TotalEnergies, alongside ExxonMobil (37.04% interest), Santos (22.83%), and JX Nippon (2.58%), is planning a large-scale liquefied natural gas (LNG) project in Papua New Guinea (Papua LNG).

Will Papua LNG make money?

Papua LNG is only the second large-scale natural gas project in the country and,if completed,would rival Indonesia's gas exports. However,by the time the project is expected to come online, experts are projecting a glut in gas prices due to flooded markets. In essence, there is little revenue certainty for the project.

Does Papua New Guinea need electricity?

The Government of Papua New Guinea also aims to increase electricity access to 70% of the population by 2030, a goal which will require connections of 100,000 households per year.
