Paraguay battery storage for solar panels

Just like other battery types, solar batteries can be charged by the energy that your solar panels collect, and then the batteries can store that energy -- in some cases, for up to a year! The energy from your solar panels can't just go directly into your solar batteries, though. Your solar panel system will also need an inverter.

If your business is solar energy then what better way to promote and demonstrate the competence of solar than by running an off-grid solar, battery, inverter-charger backup system to the AC grid. This is what Victron Energy dealers Enersoltec S.A. have done at their premises in Filadelfia, in Paraguay. Benefits Enersoltec's system has been up [...]
