

Photovoltaic panel automatic packaging line

Why should you choose horad solar panel production lines?

We offer complete solar panel production lines for global customers to manufacture photovoltaic modules based on their specific requirements. Since foundation, Horad has been committed to becoming a leading manufacturer of intelligent PV panel production lines by focusing on the solar panel line R&D, designing, manufacturing, sales and services.

Do you offer a complete set of PV machines?

We offer a complete set of PV machines covering all solar manufacturing processes. We offer complete solar panel production lines for global customers to manufacture photovoltaic modules based on their specific requirements.

Can horad make customized solar panel lines?

We can make customized automatic solar panel lines according to customer needs. Horad is a specialist in solar panel manufacturing equipment. Our company is committed to providing efficient turnkey lines and a range of individual equipment for customers from around the world. Our products have been exported to over 20 countries and regions by far.

The 100MW line can produce various types of solar panels, single and dual-glass, 5BB-12BB and monocrystalline and polycrystalline silicon. Each panel weighs up to 50kg and has a size up to 2,500mm*1,400mm.

⌘ Automatic Solar Panel Laminator. Function: Automatic solar panel laminator is a mechanical device that presses multiple layers of materials together. Picture: ⌘ Automatic Solar Module ...

800 MW production solar photovoltaic panels. Ecoprogetti's production lines are configured to accommodate two primary panel sizes: 2.3*1.4 m for residential use, and 2.5*1.4 m for utility ...

Auto J-Box Potting Machine An automatic J-box potting machine is composed of conveying, positioning and potting systems. The potting machine is used for automatic glue potting of PV ...

Fully Automated Packing Line for Solar Panels: Revolutionizing Efficiency in the Renewable Energy Industry
The renewable energy industry is rapidly expanding, with solar power taking center stage as a sustainable and efficient source of ...

Functional description and pictures of some equipment in the 100MW solar panel production line: 1. Automatic layup machine Function: automatically grab the battery string and place it on the ...

Photovoltaic panel automatic packaging line

An automatic string taping machine is an indispensable machine in the solar panel production line. The string taping machine has a range of advantages like adjusting tape width and ...

An automatic J-box soldering machine is an efficient machine used for rapid and accurate soldering of PV junction boxes. Featuring higher precision and stability, the soldering machine ...

An automatic corner grinding machine is an efficient machine used for automatic grinding of solar panel frame corners. The grinding machine is composed of conveying, positioning and corner ...

• Automatic Solar Panel Laminator. Function: Automatic solar panel laminator is a mechanical device that presses multiple layers of materials together. Picture: • Automatic Solar Module Framing Machine. Function: Automatic solar module ...

A 300MW solar module line is an automatic production line of solar modules. All of the individual equipment has high automation, lowering manual cost and lifting production efficiency. The 300MW line can produce various types of solar ...

Sorting and packaging machines are used in PV module manufacturing line for solar panel sorting and packaging. Horad provides three types of products in this regard, including auto labelling machine, corner protector inserting machine ...

Individual equipment of a turnkey line is a complete set of machines covering all solar manufacturing processes, such as glass loading, solar cell welding, panel lamination and so on. Horad provides customers with all kinds of individual ...

Our automated Solar/PV modules production line includes a complete set of equipment, such as solar cells laser cutting, string soldering, welding, glass loading, layup, laminating, framing, J-Box soldering, curing, final testing, ...

Sorting and packaging machines are used in PV module manufacturing line for solar panel sorting and packaging. Horad provides three types of products in this regard, including auto labelling ...

An automatic corner protector inserting machine is used for automatic inserting of kraft or corrugated cardboard corner protectors for solar panels. The panel switching process is easy ...
