

Photovoltaic panel stacking panel manufacturer

What is solar stack?

Solar Stack is an innovative and damage-free solar panel mounting system that revolutionizes the way solar panels are installed on roofs. Unlike traditional methods that involve drilling holes and potentially causing damage to the roof, Solar Stack utilizes a spray polyurethane foam adhesive to securely bond the mounts to the roof surface.

What is a tamarack solar module racking structure?

Our innovative solar module racking structures are designed to install quickly and provide secure mounting for modules from nearly all manufacturers. With pole, roof, and ground mounts for solar panels, the Tamarack line of products has a solution for your grid-tied or off-grid application.

What is Tamarack solar products?

Tamarack Solar Products manufactures innovative solar module mounting structures that are designed to install quickly and provide a secure mounting to a pole, the ground, or on a roof or wall. Economical, attractive, easy to install, and sporting built-in wire management. Makers of the industry's original single clamp design--yup, that's us!
