Various forms of evidence show the earliest settlers of the Pitcairn Islands were Polynesians who occupied Pitcairn and Henderson for several centuries until the islands were abandoned: Henderson most likely before the 16th century and Pitcairn in the 17th or early 18th century. The islands were uninhabited when they were discovered by Europeans.

Solar project for sustainable energy supply of the region "The aspect of sustainability and biodiversity has long been an essential part of our activities here at the organic farm," Hubert-Alexander Bechinger, managing director of Bechinger e-Energie GmbH and owner of the Rickertsreute organic farm, tells us.

Now we are embedding sustainability into everything we do as we become the global leader in sustainable energy solutions." On average, Vestas wind turbines are 85% recyclable, and, as wind turbine rotors consist of a relatively large amount of non-recyclable composite materials, the company is focusing on improving the recyclability of these ...
