Installing Plico's solar panels is a powerful first step towards achieving greater energy independence. In the future you might like to add a Plico battery and generate solar savings 24/7, but for now, putting panels on your roof is a simple way to start harnessing the benefits of our sun's beautiful rays.

Community batteries have gained media prominence in the last few months, partly due to Labor's pledge to spend \$200m and install 400 community batteries across Australia, with five of these to be in Perth. While community batteries are not a brand new concept (Synergy ran a trial in Alkimos from 2016 to 2021), up until now, they haven't been implemented in any ...
