

Can solar photovoltaic improve Bhutan's hydropower supply?

While hydropower provides a reliable source of growth, other renewable energy technologies, including solar photovoltaic, offer ways to diversify Bhutan's electricity mix and increase resilience to changing seasonal extreme weather patterns that can adversely affect hydropower supply.

Why is energy important in Bhutan?

Energy in Bhutan has been a primary focus of development in the kingdom under its Five-Year Plans. In cooperation with India, Bhutan has undertaken several hydroelectric projects whose output is traded between the countries.

Who owns Bhutan Power Corporation & Druk Green?

Both the Bhutan Power Corporation and Druk Green are owned by Druk Holding and Investments, which exercises oversight in the investment and development activities of the energy companies. Both companies faced decreased profit margins largely because of losses due to increased energy price on repurchase from India.

How many solar power systems are there in Bhutan?

As of 2015 there are approximately 4,600 solar power systems operating in Bhutan, with 2,750 on-grid systems and 1,848 off-grid systems. The development potential is estimated at around 12,000 megawatts. Solar energy in Bhutan has received direct investment from domestic and international sources.

Will EIB finance hydro power plants in Bhutan?

EIB framework loan to finance hydro power plants (expected in the range of 25 - 75 MW) and solar PV plants in Bhutan. The European Investment Bank (EIB), the world's largest multilateral bank and leading global financier of renewable energy, signed its first-ever investment support for Bhutan today.

What is Tata Power doing in Bhutan?

Tata Power has joined forces with Druk Green Power Corp. to develop 5,000 MW of clean energy capacity in Bhutan. This includes large-scale hydropower and solar projects aimed at supporting Bhutan's energy goals and regional integration.

The first-ever EIB project in Bhutan, one of just three net carbon-negative countries in the world, supports new solar photovoltaic and hydropower schemes under the EU's Global Gateway initiative. The 30-year ...
