DYNESS DL5.0C adopts economic design, and is tailor-made for residential & small commercial application. This LFP battery module supports remote update and APP monitoring, and provides multiple installation methods. It is scalable from 5.12 -256 kWh (max. 50 modules in parallel), providing various energy storage options to meet different requirements.

La batería solar de litio de bajo voltaje (48V) Dyness DL5.0C con capacidad de almacenamiento de 5,12kWh. Batería solar a base de iones de LiFePO4 (fosfato de litio y hierro). Con ...

The DL5.0C low voltage battery from Dyness is an excellent solution for residential storage applications, with strong features such as high peak current, durability, dual active protection and compatibility up to 50 modules in parallel. This low voltage battery offers up to 90% usable capacity, 6,000 cycle-life warranty and due to its compact ...

DYNESS DL5.0C adopts economic design, and is tailor-made for residential & small commercial application. This LFP battery module supports remote update and APP monitoring, and provides multiple installation methods.

DL5.0C El Dyness DL5.0C adopta un diseño económico y está hecho a medida para aplicaciones residenciales y en pequeños comercios. Este módulo de batería LFP admite la actual-ización remota y el control mediante APP y puede instalarse mediante métodos diversos. Es ampliable desde 5,12 kWh

Dyness DL5.0C adopts economic design, and is tailor-made for residential and small commercial application. This LFP battery module supports remote upgrade and APP monitoring and provides multiple installation methods. It is scalable from 5.12kWh to 256kWh (max. 50 modules in parallel), providing various energy options
