

At present, Voltalia has 29 MW of capacity in operation and under construction in French Guiana. This total includes biomass, hydropower, battery storage and solar photovoltaic (PV) projects. In October last year, the ...

The French Energy Regulation Commission (CRE) has selected a pair of battery storage projects by Voltalia that will benefit the function of the Guianese electrical network. The "Mana Storage" project from Voltalia consists of two battery storage units for an installed capacity totaling 10 MW, and is the main project selected by the CRE in ...

Voltalia is the sole winner of the fifth period of the CRE 4 tender for non-interconnected areas for ground-based solar power plants in French Guiana. The project, called "Parc Sable Blanc", combines a five-megawatt photovoltaic power plant with a lithium-ion battery storage facility with a capacity of 5 megawatts and of 9.3 megawatt-hours.

At present, Voltalia has 29 MW of capacity in operation and under construction in French Guiana. This total includes biomass, hydropower, battery storage and solar photovoltaic (PV) projects. In October last year, the French firm and its partner Banque des Territoires, part of France's Groupe Caisse des Depots brought online a 2.6 MW/2.9 MWh ...

French renewable energy company Voltalia has completed the expansion of a renewable energy plant in French Guiana, adding a battery energy storage system (BESS) of 10.6MWh. The Paris-listed company announced the commissioning of the Sable Blanc solar-plus-storage project yesterday (10 May).

French firm Voltalia has started building the largest energy storage system in French Guiana made up of two separate lithium-ion batteries. The Mana Stockage facility with 10MW / 11.3MWh of storage is located close ...

French renewable energy company Voltalia has completed the expansion of a renewable energy plant in French Guiana, adding a battery energy storage system (BESS) of 10.6MWh. The Paris-listed company announced ...

This power plant will reinforce the Toco storage complex. Located in French Guiana, the Toco complex is one of the largest storage systems in France, with 12.6 MW/16.5 MWh in operation and 0.5 MW/0.6 MWh under construction. A second battery storage project in the Toco storage complex

Voltalia has announced the construction of Mana Stockage on French Guiana, a battery storage system with a projected total installed capacity of 10MW. Mana Stockage will represent 90% of the island's storage

capacity, according to the company's press release.

French RE developer Voltalia has recently announced the commissioning of its Sable Blanc power plant combining solar photovoltaic production and battery energy storage in French Guiana. Developed entirely ...

France-based renewable energy player Voltalia has commissioned the Mana battery storage project at the Toco storage complex located in French Guiana. With a capacity of 10 MW/ 13.6 MWh, the Mana project adds on to the existing capacity at the Toco complex, bringing the total installed storage capacity to 12.6 MW/16.5 MWh.

French RE developer Voltalia has recently announced the commissioning of its Sable Blanc power plant combining solar photovoltaic production and battery energy storage in French Guiana. Developed entirely by the company, the hybrid project is claimed to benefit from a guaranteed sales price for 20 years.

French firm Voltalia has started building the largest energy storage system in French Guiana made up of two separate lithium-ion batteries. The Mana Stockage facility with 10MW / 11.3MWh of storage is located close to Voltalia's under-construction Savanes des P&#232;res project within the Toco storage complex, which couples a 2.6MW / 2.9MWh battery ...

Voltalia is the sole winner of the fifth period of the CRE 4 tender for non-interconnected areas for ground-based solar power plants in French Guiana. The project, called "Parc Sable Blanc", ...
