

Portugal green eagle solutions

Who is green eagle solutions?

Green Eagle Solutions is an international and rapidly growing tech company that offers SaaS solutions to the renewable energy sector. We have developed ARSOS, a Robotic Process Automation (RPA) based software that autonomously operates and apply one-to-one care to hundreds of assets simultaneously.

Why should you choose green eagle solutions?

Green Eagle Solutions' technology allows green energy production to be more efficient and therefore sustainable, bringing the common goal of achieving a carbon-neutral world closer. Despite the unexpected and tough year that the world has gone through, 2020 has opened new opportunities for the entire renewable energy sector.

What is green eagle Arsos & how does it work?

With Green Eagle's technology, renewable assets contribute to the grid stability, become as reliable as traditional energy sources, and increase their profitability. The company's automation platform, called ARSOS, enables renewable assets to operate 100% autonomously, allowing customers to implement revenue-based operations.

How has green eagle changed over the years?

Since its founding, Green Eagle has grown significantly. ARSOS is now operational with over 15 GW of renewable energy capacity in Spain, which is more than 20% of the total installed capacity in the country, and more than 3 GW abroad.
