

Martin Sprocket & Gear is a leading manufacturer and supplier of power transmission and material handling components. The company has been in business for over 70 years and has a reputation for producing high-quality ...

Martin INTRODUCTION 1 Mechanical power transmission is a necessity because the available force can seldom be used in industrial applications without being trans-ferred, reduced or adjusted. Power transmission components must be applied and power transmitted to provide the speed and torque at the point of the load.

Martin Sprocket & Gear was founded in 1951 by Joe Martin. Over the decades Martin has expanded through machining, fabrication, forging, casting, powdered metal technology and ...

Martin manufactures spur gears and gear rack, bevel gears, miter gears and worm gears. With a vast inventory of raw materials, modern machine tool capacity and a pro-service attitude, Martin makes short work of a quick delivery on all specialty gears.
