

Power n sun Libya

Who is power n sun?

Specializing in solar solutions, Power n Sun provides a full range of services, including the design and distribution of solar components for On-Grid, Off-Grid, and PV Diesel Hybrid systems.

Could Libya be a solar energy exporter?

The desert technology (DESRT-TEC) is one of the largest projects; there was proposed that Libya would be one of the exporters of solar power generated from solar energy to Europe (Griffiths, 2013). The aims of that project to provide Europe Union countries with energy generated from the sun in North Africa and the Middle East countries.

How much solar power does Libya have?

In-depth south regions of Libya, the daily average solar PV power potential is greater than 6.5 kWh/kWp, although the annual average is greater than "2045 kWh/kWp". Fig. 5. Solar photovoltaic power potential in Libya (GSA, 2020).

Who is power n sun solar equipment?

The group initially focused on power and power generation products, specializing in imports and exports in the Middle East, Africa, South East Asia and Europe region. In 2017, Power N Sun Solar Equipment's Trading LLC was established as a 100% subsidiary of Orange Overseas FZE, registered in Dubai as a limited liability company.

Why is solar energy important in Libya?

Due to Libya's geographic location on the cancer orbit line with exposure to the sun's rays during the year and with long hours throughout the day, solar energy may be considered to be one of the main resources (Bannani et al., 2006).

What are the main energy sources in Libya?

Libya relies fully on fossil fuels to generate its electricity; hence, the Natural Gas and Oil are the key energy sources (Sorensen, 2010). The power stations in Libya are dependent on light and heavy oil, with a growing dependency on natural gas (Asheibe and Khalil, 2013).
