

PowerCell Group develops and manufactures fuel cell stacks and fuel cell systems with uniquely high power density. Our products are used in a wide range of industries, including aviation, marine, on- and off-road. PowerCell's ...

PowerCell tecknar order i juli med ledande europeisk marin OEM-tillverkare PowerCell erh ller principgodk nnande fr n Den Norske Veritas f r en kombinerad metanolreformatsystem och br nslecellssystem PowerCell tecknar order i september f r br nslecellssystem v rd 165 MSEK till ledande italiensk marin OEM-tillverkare

Hydrogen-electric solutions are essential for the world to reach the Paris Agreement's climate goals, and PowerCell is meeting strong demand for its emission-free solutions. To finance the continued expansion, PowerCell has signed a loan with Nordea of SEK 50 million. The loan is partly secured by the European Investment Fund's "InvestEU ...

At PowerCell Group, we are decarbonising industries. We design, develop and manufacture hydrogen electric fuel cells and systems for aviation, propulsion, stationary, and marine applications. Our fuel cell systems have unparalleled ...

At PowerCell Group, we are decarbonising industries. We design, develop and manufacture hydrogen electric fuel cells and systems for aviation, propulsion, stationary, and marine applications. Our fuel cell systems have unparalleled power density, and the only emissions are water and heat. At our headquarters, located in Gothenburg, more than ...

PowerCell Group, a global leader in hydrogen-electric solutions with unique fuel cell stacks and systems, has partnered with Hitachi Energy, a global technology leader in promoting sustainable energy, to develop a new product called HyFlex(TM). The product is a flexible container solution that can be used in a wide range of applications for ...

PowerCell signs SEK 165m order in September for fuel cell systems with leading Italian marine OEM manufacturer Significant events after the end of the reporting period. PowerCell partners with Australian aviation company for concept study on VTOL aircraft. CEO Richard Berkling comments:

PowerCell Group  r en v rldsledare inom v tgaselektriska l sningar med unika br nslecellsstackar och system. Med  rtionden av erfarenhet anv nder vi v rt kunnande f r att accelerera  verg ngen till en utsl ppsfri, mer h llbar v rld. Vi riktar oss till branscher som flyg, marin, off-road, on-road och station r kraftproduktion.

...

PowerCell Group products generate electric power with minimal environmental impact using zero-emission hydrogen fuel cell technology. Power Generation System 5 is a hydrogen fuel cell system developed to create electricity in an environmentally friendly, silent, and reliable way. The system is based on our V Stack and can be used as a generator ...

Anders will start at PowerCell on 1 November 2024 and formally assumes the role of CFO on 1 December 2024 after a controlled handover from Torbjörn Gustafsson, who announced in June this year that he is leaving PowerCell at the end of the year for an assignment outside the group.

PowerCell Group offers customized megawatt solutions together with our partners. We understand the complex challenges our clients face and we can offer the complete value chain of hydrogen fuel cell power systems through our partnerships with world leading industrial innovators and integrators, such as Hitachi-ABB Power Grids. ...

PowerCell har tecknat en order för leverans av bränslecellssystem till en ledande europeisk OEM-tillverkare av drivsystem till den marina kryssningsindustrin. Ordervärdet är 16,5 MSEK och leverans kommer att ske under första halvåret 2025. Detta är den första kommersiella ordern för det nyintroducerade Marine System 225.

PowerCell, världsledande inom vätgasdrivna elektriska lösningar med unika bränslecellsstackar och system, har tecknat en order på 100 kW marina bränslecellssystem från O.S. Energy för det hållbara fartygsprojektet Transship II. Denna order innebär en betydande utvidgning av PowerCells erbjudande till segmentet mindre kommersiella ...

Ordern som Vantastec Group tecknat omfattar leveranser under 2024 och 2025. PowerCell ska leverera sitt VS5 bränslecellssystem som är anpassat för mobilitet. Varje system har kapacitet på 5 kW och ska användas för att generera hjulkraft för en "Meals on Wheels" transportflotta i Wales.

At PowerCell Group, we dream, design, develop and manufacture some of the best hydrogen electric fuel cells and systems the world has ever seen. Our products have unparalleled power density and are capable of delivering zero-emission operation to our customers. Founded in 2008 ...

Here's our PowerCell Group team at this year's International WorkBoat Show! Together with RIX Industries, we are presenting the M2Power 250, a fully integrated methanol to power solution that combines our technologies to enable a smooth transition to net-zero emissions for the marine industry. Here are some of our key insights from the event: ? There is a strong interest in ...
