

What is the best power tower?

What stands out on our pick for best power tower overall, the Sportsroyals Power Tower, is its versatility and customization. It is one of few power towers that has a pull-up bar with an adjustable height, meaning it can be adjusted for a taller athlete, but can also accommodate low ceilings.

What should you consider in a power tower?

There is a lot to consider in a power tower. One big thing is the dimensions of a power tower, as one that's too small makes the power tower tough to use for taller or larger athletes. At the same time, a power tower with too much of a footprint may not fit in your home gym how you want it to. Here is a list of some of our favorite power towers:

How much does a power tower cost?

The prices of power towers vary depending on their features. Power towers with more advanced features and higher quality will be more expensive. An affordable power tower could range from \$100-\$300. However, if money is no object then you might spring for a tower that cost over \$1,000 if you want one built to last with a long warranty.

What is the OneTwoFit wall mounted power tower?

The OneTwoFit Wall-Mounted Power Tower is a multifunctional pull-up bar with a couple of tricks up its sleeve. Lightweight and modular, the pull-up bar can be rotated from a pull-up station to a dip and knee raise station by lifting and placing the OneTwoFit on hooks mounted on the wall.
