

Who is powerup energy technologies?

We are happy to help! PowerUP Energy Technologies, based in Estonia, the market-leader hydrogen power technology with the PowerUP fuel cells generator products.

How does powerup generator work?

Clean power, green future. PowerUP's generators are based on proton exchange membrane (PEM) fuel cells, which makes power generation efficient and environmentally friendly. Our fuel cell based generators use hydrogen gas as fuel. The chemical energy of the fuel is directly converted to electrical energy.

Can I share my personal information with PowerUP energy technologies?

Never share sensitive information (credit card numbers, social security numbers, passwords) through this form. This site is protected by reCAPTCHA and the Google Privacy Policy and Terms of Service apply. PowerUP Energy Technologies provides hydrogen fuel cells generators, a sustainable innovative source of energy.

PowerUP Energy Technologies, formerly specializing in portable hydrogen fuel cell generators, announces a strategic pivot to offer a revolutionary hybrid solution... For over 25 years, FCW has been the go-to source for news, information, and analysis. Join our community of industry leaders and innovators. Become a Member |

Mark Jardine, Managing Editor of Sail-World, talks to Dr. Ivar Kruusenberg, CEO and founder of PowerUP Energy Technologies, at METSTRADE 2021 to find out more about their fuel cell generators which use ...

PowerUP Fuel Cells OÜ toodab vesinikul töötavaid elektrigeneraatoreid ja prootonvahetusmembraaniga kütuselemente. Ettevõte pakub kaasaskantavaid ja keskkonnasõbralikke energialahendusi erinevatele turusegmentidele, millest põhilisteks on telekommunikatsioon, ehitus, tervishoid, valitsusvälised organisatsioonid, julgeolek, jahid, ...

PowerUP produces hydrogen fuel cell-based generators. These smart generators are sustainable, compact, lightweight, noise-free, odourless and require minimal maintenance. ... marine and construction industries. Newsletter Energy ...

PowerUP Energy Technologies is actively seeking funding, targeting a total of EUR7 million to fuel expansion into the US and Asia, alongside increased production capacity. While most current investors hail from Estonia, the company is diversifying its funding sources by exploring opportunities in Europe and funds.

PowerUP Energy Technology. Keiretsu Forum Nordics December 4, 2021 Portfolio company, VCI PORTFOLIO. PowerUP Fuel Cells OÜ is a producer of the best-in-class hydrogen fuel cell based electric generators and proton exchange membrane fuel cells. The only company currently producing and

selling innovative hydrogen fuel cell based portable ...

We develop and produce high-quality and sustainable energy generation products and custom energy solutions. With more than 15 years of experience with fuel cell technology, PowerUP is an innovator in the fuel cell technology market. We are deeply focused in making the hydrogen of tomorrow the reality of today.

Where is PowerUP Energy Technologies headquartered? PowerUP Energy Technologies is headquartered in Tallinn, Estonia. What is the size of PowerUP Energy Technologies? PowerUP Energy Technologies has 46 total employees. What industry is PowerUP Energy Technologies in? PowerUP Energy Technologies's primary industry is Electrical ...

The purpose of the project is to develop and assemble in co-operation with Beyonder AS and Nordic Batteries AS a 10,000 W proton exchange membrane (PEM) fuel cell based portable generator, UP10K Pro, which will provide clean energy to a number of industries that require uninterrupted power supply, but is mainly targeted to the construction and mining industry.

While solar panels and wind turbines are a great source of power, their reliability is limited due to weather conditions. With our miniature smart-grid solutions you can complement your green power generation. If other methods aren't ...

PowerUP Energy Technologies is an Estonian cleantech start-up that produces best-in-class hydrogen fuel cell-based electric generators and proton exchange membrane fuel cells. PowerUP's technology is based on their co-founders' 15 years of scientific research in the field of fuel cells and energy technologies.

PowerUP Energy Technologies' UP3K hydrogen-powered generator represents a significant step towards resilient and sustainable power generation. May 10, 2024. PowerUP Energy Technologies Introduces a First Ever Fuel Cell & Li-ion Super Battery Hybrid Solution. Dec ...

With an aim to obliterate these hurdles to seamless electricity generation and storage, Tallinn-based PowerUP Energy Technologies is offering an exceptional line of silent, odorless, and lightweight hydrogen fuel cell smart electric generators that are far more efficient and sustainable than their traditional counterparts.

PowerUP Energy Technologies has 5 employees at their 1 location and EUR118.8 k in annual revenue in FY 2021. See insights on PowerUP Energy Technologies including office locations, competitors, revenue, financials, executives, subsidiaries and more at Craft.

PowerUP Energy Technologies is committed to deliver renewable energy technologies to the market. We are currently concentrating on the production and development of hydrogen fuel cell-based ...

Envisioning the company's future plans Dr. Kruusenberg notes how excited PowerUP Energy Technologies is

Powerup energy technologies oÃ¼ Switzerland

to launch new products in 2022 including a new 6kW generator. By the end of 2022, the company is also planning to venture into the African and Southeast Asian markets and get hydrogen-based fuel cell generators more widely available across ...
