Where are Proterra batteries made?

In November 2023, Proterra's battery business was acquired by Swedish truck maker Volvo for \$210 million. Proterra has its headquarters and a battery manufacturing facility in Burlingame, California, located in Silicon Valley. Batteries are also manufactured in Southern California's City of Industry.

How did Proterra become a company?

In 2015, Proterra diversified its business and decided to develop its own battery technology and powertrains. It eventually became a company with three business lines: battery systems called Powered, the Transit unit and a charging infrastructure business called Energy. Software services rounded out the mix.

Who owns Proterra powertrains?

The Proterra Powered powertrain manufacturing business line will operate as an independent company within the Volvo Group. The transit bus manufacturing business line was sold to Phoenix Motorcars. The Proterra Energy business line which built charging systems for fleets of heavy-duty vehicles was purchased by Cowen Equity.

Does Proterra offer a battery leasing program?

Proterra offers a battery leasing program where customers pay for the price of the battery over time rather than upfront when the bus is purchased. The company says that many customers can make lease payments using their operational savings from reduced fuel and maintenance costs.

What happened to Proterra powered?

The company filed for Chapter 11 bankruptcy in August 2023. In November, its assets were split into three divisions and sold off. The Proterra Powered powertrain manufacturing business line will operate as an independent company within the Volvo Group. The transit bus manufacturing business line was sold to Phoenix Motorcars.

Is Proterra in Chapter 11 bankruptcy?

Proterra Inc. and Proterra Operating Company Inc. are in a voluntary Chapter 11 bankruptcy process in the US. Volvo Group has been selected as the winning bidder in an auction for the business and assets of the Proterra Powered business unit at a purchase price of USD 210M.
