

The PSE Merle T. Lebakken Scholarship was launched in 2022 in honor of PSE's late founder, Merle T. Lebakken. When Merle started PSE in 1974, he exemplified the importance of building and honoring client relationships. Today, that is still one of PSE's driving forces and has influenced the last 50 years of PSE's existence and

The power system belongs to a special type of critical infrastructure, as it determines the security of society, the economy and the state. This system is centrally controlled. The National Dispatching Center, the so-called dispatching service of PSE, is responsible for the operation of the Polish power system.

We are a guarantor of security and stability of the power system in Poland. We feel responsible for the security of future generations. Being aware of the condition of national infrastructure, challenges and trends that affect the development of the system, we perform upgrade work and new investment projects in order to ensure its stability and security.

PSE offers a wide range of electrical services in the Transportation industry including new construction, custom designs, installations, repairs, maintenance, and systems upgrades. MINING PSE customers benefit from our mine power ...
