

# Puerto Rico agile energy

Will Puerto Rico have a future energy system?

The future energy system in Puerto Rico can be affordable for the most vulnerable customers, resilient for the most remote communities, obliging of land-use interests, and supportive of distributed and local ownership.

How much money does Puerto Rico have to pay for solar?

Up to \$190 million is available to Puerto Rico's Housing Administration and a private company to pay for solar and battery installations in public housing common areas and subsidized, multifamily housing properties. Another \$175 million is available for certain healthcare and dialysis centers.

Will Puerto Rico's solar power system rebirth?

The degree of distributed solar and storage expected in Puerto Rico is an amount that has not been attempted elsewhere. The journey of Puerto Rico's power system from widespread wreckage to renewable and resilient rebirth could be an enduring example for others to follow.

What happened to Puerto Rico's electric grid in 2017?

Puerto Rico hit a deadly record in 2017, when back-to-back hurricanes destroyed around 80% of the island's electric grid. This was the longest blackout in U.S. history--taking 328 days to get power fully restored--and resulted in more than 3,000 lives lost. In the face of these challenges, the people of Puerto Rico want to rebuild differently.

Why did Puerto Rico get a power outage?

The announcement comes as the U.S. territory continues to struggle with chronic power outages that have worsened since Hurricane Maria pummeled the island as a powerful Category 4 storm in 2017, razing the electric grid. The outages also are blamed on a lack of maintenance and investment in its electric grid for decades.

Puerto Rico: Energy intensity: how much energy does it use per unit of GDP? Click to open interactive version. Energy is a large contributor to CO<sub>2</sub> - the burning of fossil fuels accounts for around three-quarters of global greenhouse gas emissions. So, reducing energy consumption can inevitably help to reduce emissions.
