What is the Puerto Rico energy resilience fund (PR-ERF)?

SAN JUAN, PUERTO RICO-- The U.S. Department of Energy (DOE) today announced up to \$453.5 million from the Puerto Rico Energy Resilience Fund (PR-ERF) aimed at increasing residential rooftop solar PV and battery storage installations across the region, with a focus to reach and support Puerto Rico's most vulnerable residents.

Will Biden get \$440 million for solar in Puerto Rico?

WASHINGTON, Nov 2 (Reuters) - The Biden administration is launching talks with solar energy companies and nonprofit groups in Puerto Rico on awards of up to \$440 million for rooftop solar and battery storage systems in the commonwealth where storms have wiped out the grid in recent years, the Energy Department said on Thursday.

Why is Puerto Rico funding solar & battery storage?

Funding is Part of a \$1 Billion Effort to Deploy Solar and Battery Storage to Puerto Rico's Most Vulnerable Residents, Helping Increase Resilience and Lower Energy Bills for up to 40,000 Households

How much money does Puerto Rico have to pay for solar?

Up to \$190 million is available to Puerto Rico's Housing Administration and a private company to pay for solar and battery installations in public housing common areas and subsidized, multifamily housing properties. Another \$175 million is available for certain healthcare and dialysis centers.

Can solar power save Puerto Rico?

Rooftop solar coupled with battery storage can increase independence from the centralized grid, while cutting emissions blamed for climate change. Up to 4,600 people died in Puerto Rico after 2017's Hurricane Maria, crushed the power grid, studies say. Among the worst hit communities were ones with elderly and low-income people.

Will a future powered by renewables make Puerto Rico more energy efficient?

"A future powered by renewables will offer the residents of Puerto Rico more energy security and more reliability--all while leaving households with cheaper bills to pay," said U.S. Secretary of Energy Jennifer M. Granholm.

The project will generate power directly to Puerto Rico's grid and provide energy storage benefits necessary for Puerto Rico's goal of achieving 100% clean energy resources by 2050. ECONOMIC IMPACT. This project will support approximately 750 construction jobs and more than 50 full-time jobs once fully operational.

Convergent Coamo Solar PV Park is a 100MW solar PV power project. It is planned in Coamo, Puerto Rico.
