How much money does Puerto Rico have to pay for solar?

Up to \$190 million is available to Puerto Rico's Housing Administration and a private company to pay for solar and battery installations in public housing common areas and subsidized, multifamily housing properties. Another \$175 million is available for certain healthcare and dialysis centers.

Does Puerto Rico have a solar program?

To further assist Puerto Rico's energy resilience and clean energy goals, DOE today announced that on February 22, 2024, residents can apply for DOE's Programa Acceso Solar (Solar Access Program) -- a program designed to connect up to 30,000 low-income households with residential rooftop solar and battery storage systems with zero upfront costs.

What is the Puerto Rico energy Resilience Fund?

This program is a consumer-facing application phase of the first round of funding from the Puerto Rico Energy Resilience Fund, a \$1 billion DOE program focused on improving the resilience of Puerto Rico's electric grid with an emphasis on the region's most vulnerable and disadvantaged households and communities.

How do low-income families get solar in Puerto Rico?

Today, low-income families across Puerto Rico can go to [energy.gov/solarPR](https://energy.gov/solarPR) to check their eligibility, prepare required documentation, and identify their local Solar Ambassador. Solar Ambassadors consist of 16 local organizations selected by DOE to conduct outreach in targeted communities and to process applications to the Programa Acceso Solar.

Will Puerto Rico's rooftop solar capacity increase by 2050?

Under all scenarios of the study, Puerto Rico's rooftop solar capacity and storage capacity will significantly increase by 2050. Even if rooftop solar and batteries are added to all suitable rooftops, utility-scale renewable energy and storage projects will still be needed to meet electric load reliably.

Does Puerto Rico need new power generation infrastructure?

Puerto Rico must increase new power generation infrastructure significantly--on the scale of hundreds of megawatts--to stabilize the grid and alleviate current generation shortfalls, including rapid deployment of utility-scale and distributed renewable resources and significant amounts of storage.

9 ???&#0183; A team led by Puerto Rico Public Housing Administration is negotiating for an award of up to \$83.2 million from the Energy Dept., and a team led by Dynamic Solar Solutions is ...

2 ???&#0183; The \$365 million investment is part of DOE's new Programa de Comunidades Resilientes, funded by the Puerto Rico Energy Resilience Fund (PR-ERF). The program will provide up to \$190 million

for installing solar ...

The Puerto Rico Energy Public Policy Act (Act 17) requires Puerto Rico's utility to cease all coal-fired energy generation by 2028 and shift to a 100% renewable energy mix by 2050. Today's announcement is one of many actions DOE has taken to help strengthen Puerto Rico's grid modernization and energy resiliency.

Puerto Rico's energy situation sits at the intersection of social equity, climate resilience, and emergency management. Puerto Rico can feasibly transition to 100% renewable energy by 2050, but significant system upgrades and investments--guided by meaningful community participation--are needed to get there.

Lea este anuncio en espa&#241;ol. COAMO, PUERTO RICO --Today, the U.S. Department of Energy (DOE) announced its intent to issue a \$325 million funding opportunity for the new Programa de Comunidades Resilientes, funded by DOE's Puerto Rico Energy Resilience Fund (PR-ERF). This new program aims to improve community-level energy resilience for ...
