

Puerto Rico solar energy for house

What is the Puerto Rico solar access program?

The Solar Access Program is funded by the U.S. Department of Energy's Puerto Rico Energy Resilience Fund. For far too long, Puerto Ricans have lived with an unreliable and expensive electric system.

How much money does Puerto Rico have to pay for solar?

Up to \$190 million is available to Puerto Rico's Housing Administration and a private company to pay for solar and battery installations in public housing common areas and subsidized, multifamily housing properties. Another \$175 million is available for certain healthcare and dialysis centers.

Can solar panels help a low-income Puerto Rican household?

Funding will Support Solar Panels for up to 40,000 Low-Income Households and Create Local, Good-Paying Jobs; Part of a \$1 Billion Effort to Increase Resilience for Puerto Rican Households

Does Puerto Rico have a solar incentive program?

The Program will serve families that are not Low to Moderate Income (LMI). Programs closed to new applications. The Puerto Rico Department of Housing (PRDOH) has designed the Solar Incentive Program.

What is the Puerto Rico energy Resilience Fund?

This program, funded through the Puerto Rico Energy Resilience Fund, will provide solar panels and battery storage systems to low-income households in Puerto Rico with zero upfront costs, as well as education and support on how to use and maintain the systems.

What does PR-ERF funding mean for Puerto Rico?

The first tranche of PR-ERF funding, up to \$440 million, will help lower energy bills for 30,000-40,000 single-family households in Puerto Rico, improve household energy resilience, and keep the lights on during extreme weather events.

Our company provides a complete range of residential and commercial solar products and services to customers throughout the Puerto Rico area. From simple, yet effective, to a complete solar panel installation and financing. The energy efficiency and cost-effectiveness make deciding on solar panel installation a great option.

Puerto Rico committed to meeting its electricity needs with 100% renewable energy by 2050. The Puerto Rico Grid Resilience and Transition to 100% Renewable Energy (PR100) study, led by DOE's Grid Deployment Office and supported by FEMA, is a two-year effort that has resulted in stakeholder-driven pathways for Puerto Rico to meet its clean energy goals.

Utility-scale solar in Puerto Rico has just received an \$ 861 million boost from the federal government. On

Puerto Rico solar energy for house

Thursday, the Department of Energy's Loan Programs Office announced a conditional commitment to ...
