At the United Nations (UN) 5th Conference for Least Developed Countries (LDC5), the Republic of The Gambia, the European Union (EU) and the European Investment Bank (EIB) announced the signature of a EUR24.08 million EU Global Gateway grant to be used alongside an EUR8 million EIB loan to support the implementation of a renewable energy on and ...

Implement the regulatory framework to support renewable energy Within the legal framework, define the rules for pricing renewable electricity Calculate FIT each year, including announcing the indexed level of existing PPAs. Ensure NAWEC implement the rules in practice Check that claiming generators are really renewable

To address achieving universal, clean energy access, the government of The Gambia has signed a MoU with Swiss renewable energy firm NEK. The MoU sets out to develop 200MW of onshore and 350MW offshore wind capacity while exploring green hydrogen at scale. The renewable energy company will develop the wind farms over several phases.
