Who is pylontech?

For more information, please review our Cookie Policy. Pylontech is the world's leading battery energy storage system supplier. Pylontech offers products and solutions for all scenarios, including residential, utility, C&I and so on. Pylon Technologies Co., Ltd.

Where are pylontech batteries made?

Pylontech, headquartered in China, has sold over 4.5 GWh of low- and high-voltage lithium iron phosphate (LFP) batteries. By 2022, the company was one of the top global residential battery suppliers, with over one million energy storage systems commissioned in over 80 countries.

Is pylontech a good battery company?

In short, if you are looking for a cost-effective off-grid battery solution, I would suggest Pylontech as a good, reliable option. The company's popularity around the world is a testament to its commitment to innovation and compatibility.

Are pylontech batteries compatible with off-grid inverters?

The US Series is a scalable, rack-mount battery system that is, importantly, compatible with almost all leading off-grid inverters. Compatibility is a key criterion when designing an energy storage system, and Pylontech boasts an impressive list of compatible inverters.

Does pylontech have backwards compatibility?

Backwards compatibility is rare among battery manufacturers due to the rapid advancement in battery technology and new models being released. Unlike most battery manufacturers, Pylontech has enabled this to ensure battery systems can be upgraded even when older models are no longer available.

Which Inverter should I use with pylontech batteries?

Victron is one of the most common inverters used in combination with Pylontech batteries. The Victron Multiplus and Quattro series inverters are some of the most popular off-grid inverters used around the world.
