

# Radio and Television Network WeChat solves problems

Does WeChat aggregate news sources?

Our findings suggest that WeChat aggregates official and non-official news sources and provides users with alternative perspectives on news information that is still largely dominated by mainstream media.

How many people use WeChat?

WeChat now has 600 million monthly active users ("Tencent Shares," 2015) which is almost three times the 198 million monthly active users on Sina Weibo ("Weibo Reports," 2015), a Twitter-like social media platform. There are nearly 668 million Internet users, 594 million mobile phone users in China (China Internet Network Information Center, 2015).

What makes WeChat a social media platform?

In other words, it is a messaging and calling app bundled with diverse social features that makes it a social media platform. Distinctive features on WeChat include group chat, public account platform, and moments (similar to the Facebook wall).

How does WeChat work?

WeChat allows users to like and repost content across different communicative networks enabled by the app, as well as to comment on other users' profiles or posts. It also allows users to respond to comments and vote either within the app or on the web extending beyond the app.

Does WeChat affect digitally enabled citizen journalism?

This article examines how WeChat, contemporary China's most popular mobile phone application, is affecting digitally enabled citizen journalism. Based on focus-group research with WeChat users, and...

Why is WeChat a hotbed for viral rumors?

On one hand, information transmitted on WeChat is hard to control, thus turning WeChat to a hotbed for virally transferred rumors. On the other hand, since information is harder to control by the state, private information sharing on WeChat also allows room for deconstructing the power of authority.
