

Ranking of domestic wind turbine manufacturers

Who makes the most wind turbines in the world?

The top five for wind turbine makers was dominated by Chinese manufacturers. Xinjiang Goldwind Science & Technology (SHE:002202) retained the top spot with 16.4 GW of projects commissioned last year. Envision Energy rose to second place with 15.4 GW, while Denmark's Vestas Wind Systems A/S (CPH:VWS) ranked third with 13.4 GW.

Are Chinese wind turbines the world's top wind power manufacturers?

Chinese wind turbine makers continue to pace the global market, taking four of the top five spots in a ranking of the world's top manufacturers of both onshore and offshore wind power equipment. Research from BloombergNEF (BNEF) published March 27 showed global wind power generation capacity additions hit a record 118 GW in 2023.

Who commissioned the most wind turbines in China last year?

Xinjiang Goldwind Science & Technology (SHE:002202) retained the top spot with 16.4 GW of projects commissioned last year. Envision Energy rose to second place with 15.4 GW, while Denmark's Vestas Wind Systems A/S (CPH:VWS) ranked third with 13.4 GW. Windey and Mingyang rounded off the top five.

Which country has the most wind turbines in 2023?

China accounted for 65% of global wind capacity in 2023, which pushed four Chinese wind turbine original equipment manufacturers (OEM) into the top five global rankings, a first for the sector. With a record of 16.3 gigawatts (GW) capacity installed, Goldwind maintained the leading position for the second consecutive year.

Which wind companies have the most GW installed in the world?

Note: Wood Mackenzie bases its analysis on grid connected capacity in all wind markets, apart from China and Vietnam. Outside of China, Vestas was the market leader for the sixth consecutive year, with more than 10 GW installed. Siemens Gamesa (SGRE) overtook General Electric (GE) for the second position.

Which country has the most offshore wind turbines in the world?

Mingyang doubled its installations of offshore wind turbine in 2023, commissioning 3 GW of new capacity and becoming the largest global supplier of offshore turbines for the first time. China remains the largest market for new offshore wind capacity and, as with onshore, accounts for about two-thirds of new worldwide generation.

The top five for wind turbine makers was dominated by Chinese manufacturers. Xinjiang Goldwind Science & Technology (SHE:002202) retained the top spot with 16.4 GW of projects commissioned last year. Envision Energy rose to ...

Ranking of domestic wind turbine manufacturers

In Bloomberg New Energy Finance (BNEF) 2020 ranking of global wind turbine manufacturers, 7 of the top 10 wind turbine manufacturers are Chinese companies, with Goldwind of China in second place behind General ...
