

o For Ethiopia, green growth is a necessity as well as an opportunity to be seized. o It is a necessity because it must arrest land degradation that threatens millions of our citizens with poverty. It is an opportunity because it motivates to use our country's huge renewable energy potential in the development of our economy.

Abu Dhabi aims to meet 60% of its energy needs from renewable and clean energy by 2035, according to the government-owned Emirates Water and Electricity Company (EWEC). The interim target is 50 percent share for renewable and clean energy by 2030, EWEC said, citing its latest forecast on Abu Dhabi's water and electricity production for 2024 ...
