

REPT BATTERO's GREEN BANK series of battery packs range from 10-55kWh to meet the needs of different range, and the fuel saving rate of PHEV vehicles equipped with these packs can reach more than 35% compared with traditional energy models. The battery pack has excellent low-temperature performance and can achieve ultra-low temperature cold ...

D&#233;couvrez les batteries d'alimentation et les batteries de stockage d'&#233;nergie de REPT BATTERO pour fournir des solutions &#233;nerg&#233;tiques efficaces, s&#251;res et durables pour contribuer &#224; un avenir vert.

The &quot;Wending&quot; battery shortens the length of the tab, changes its connection method with the adapter piece, and adopts integrated Wending technology to realize the integrated connection of the internal structure of the battery cell, reducing the original top space from 15mm to 8mm, effectively increasing the space utilization rate by more than 7%.
