

Res power for good Luxembourg

Why is Luxembourg focusing on a new energy source?

Although the increase of the share of the electric power is ambitious, Luxembourg has started focusing on developing another energy source as an alternative to the fossil fuels from which 77% of Luxembourg's energy is currently sourced.

Will Luxembourg benefit from a renewable hydrogen corridor between Sines & Benelux?

With Portugal's great potential for renewable hydrogen and its derivatives, Luxembourg aims to benefit from the electrolyser project which will produce renewable hydrogen planned for the port of Sines. Luxembourg confirmed its support for a renewable hydrogen corridor between Sines and the Benelux countries and for guaranteed minimum costs.
