

The EIB is providing EUR33 million for the construction of one of Kosovo's largest solar photovoltaic plants. In line with the EU Global Gateway initiative, the project will also benefit from a EUR29 million loan from the KfW Development Bank and a EUR32 million EU grant channelled through the Western Balkans Investment Framework

This is set out in the National Energy Strategy 2022-2031. Furthermore, Kosovo has signed up to this objective in the Sofia Declaration on the Green Agenda for the Western Balkans. To fulfil ...

This is the first large-scale photovoltaic system in Kosovo that can increase the installed capacity of photovoltaic energy from the current 10.1 MW (2022) to up to 110.1 MW. The project contributes to the achievement of these following ...

The European Investment Bank (EIB) said on Monday that it has signed a EUR-33-million (USD 35.9m) investment loan for the construction of a solar farm with a targeted capacity of 100 MW/120 MWp in Kosovo.

To support the green transition in Kosovo*, one of its largest solar photovoltaic plants will be constructed on former ash dump fields near Pristina with a capacity of up to 100 MW. The electricity sector in Kosovo is almost entirely dependent on coal-fired power plants.

This is the first large-scale photovoltaic system in Kosovo that can increase the installed capacity of photovoltaic energy from the current 10.1 MW (2022) to up to 110.1 MW. The project contributes to the achievement of these following United Nations Sustainable Development Goals:

Despite being geographically well suited for developing solar energy, Kosovo is facing legal, administrative, and financial barriers such as prolonged authorization procedures, solar PV installed capacity limitation, lack of RES skills and capacities, protracted legalization process, lack of public awareness, and modest support schemes, that

The EIB is providing EUR33 million for the construction of one of Kosovo's largest solar photovoltaic plants. In line with the EU Global Gateway initiative, the project will also benefit from a EUR29 million loan from the KfW ...

Unisolar L.L.C. is the exclusive representative of the company AE SOLAR GMBH, for photovoltaic panels in the Republic of Kosovo and Albania. This made us proud as a company, motivating us to achieving the highest possible successes in the field of renewable energy.

Kosovo's recent Energy Strategy sets an ambitious vision to achieving a just energy transition for the country

between 2022-2031. The main pillar of the Strategy is to accelerate renewable deployment, focused on utility-scale wind and solar PV. Kosovo plans to integrate 1200 MW of RES over the next 10-years. 100 MW Solar Engineering, P ...

This will be the first large-scale solar photovoltaic plant in Kosovo and will increase installed capacities tenfold from 10.1 MW to 110.1 MW. As a result, the share of solar power in the energy mix of Kosovo will increase from 0.2% to 2.3%.

This solar plant is expected to supply around 20 thousand households with clean energy, generate new jobs, and bring forward advanced technology, knowledge and new practices to Kosovo. The Prime Minister of Kosovo, Albin Kurti, expressed his satisfaction that Minister Rizvanolli and her team managed to initiate this process.

In order to attract investment and accelerate the development of solar panels, the United States Agency for International Development (USAID) in cooperation with local environmental experts ...
