How many energy storage containers does hithium block have?

The new facility officially went live in early June, with the delivery of Hithium's 16 energy storage containers, each with a capacity of 3.44MWh, to Solarpro. Solarpro is a leading technological provider of solutions for the generation and storage of energy within whole Europe. Hithium ? Block 3.44MWh container

Will hithium be able to supply 15gwh EMS?

We're getting close into systematising our EMS into their solutions for 15GWh on a global basis," Brandt said. Hithium was only founded in 2019, but has already supplied around 11GWh of battery products worldwide.

When did hithium start launching a European base?

Half a year later in June 2023, Hithium launched a European base, shortly before closing financing worth US\$620 million. Its forays into the US market officially began earlier this month through a 1GWh supply deal with developer Perfect Power

In collaboration with EVLO, Hithium also completed the commissioning of the 5MWh, 20-foot DC block on EVLO's 25kV testing facility. This achievement met the project's specific requirements and marked a significant milestone as the first grid-connected BESS project in North America that uses Hithium's 5MWh DC block in a 20-foot container.

In December last year, a 200MW/400MWh BESS in Ningxia, China, went online equipped with Hithium's LFP cells and claimed at the time to be the country's largest standalone lithium-ion electrochemical energy storage project. On that project, Hithium was supplying battery cells only, not the complete BESS solution.
